

E2

EXACTA E2 FOR MINIATURE HANG TAGS

**MASS-PRODUCED
JEWELLERY HANG TAGS**

- Output of up to 6.000 tags/hour
- Wide variety of die-cut shapes
- Choice of paper or film rolls

EXACTA E2

The EXACTA E2 is the perfect choice for high-performance tag production. Small but just as professionally made as their larger counterparts, miniature hang tags are particularly suited to pricing and product labelling applications in the jewellery industry. A broad spectrum of die-cut options for papers and films of various types facilitate the production of tags which are tailored to their intended use in terms of shape and function. The experienced engineers and technicians at Hettler-Systeme GmbH guarantee reliable machine operation throughout the world.
