**HANG TAGS FOR AUTOMATIC TRANSFER TO BOTTLES AND
FOODSTUFFS PACKAGING**

- Output of up to 7.000 tags/hour
- Tags produced on plastic backing
- Automated processing of plastic rolls at transfer stations
- Backing width of 120 or 200 mm
- Max. tag size of 150 x 150 mm (also possible without plastic backing)

MACHINE FOR THE PRODUCTION OF HANG TAGS ON PLASTIC BACKING ROLLS

EXACTA E3

Smooth, efficient production of dependable tags. The EXACTA 3 produces plastic-backed hang tags for automated processing at subsequent transfer stations. As in the case of the EXACTA 1, tags up to a maximum size of 150 x 150 mm can also be produced without plastic backing. The EXACTA 3 therefore represents a great two-for-the-price-of-one offer, as users reap the benefit of a single machine covering two production methods. Flexibility + outstanding performance = profitability made by Hettler-Systeme GmbH.

TECHNICAL DATA

EXACTA E3

Tag format (without plastic backing)	min. 20 x 25 mm; max. 150 x 150 mm
Tag format (on plastic backing)	min. 20 x 25 mm; max. 90 x 150 mm
Loop length	60 – 180 mm (cotton); 45 – 140 mm (elastic)
Eyelet diameter	4 mm as standard (optional: 3, 5, 6 mm)
Output	6.000 – 7.000 tags/hour
