- [+] The modular construction of the **new SRW 360 / Eco S 360** can be upgraded to make an electric punch and manual closing machine, simply by attaching an electric punching module.
- [+] Compact construction with high stability.
- [+] Best ratio of punching pressure.
- [+] Worldwide first ring wire closing unit for diameters up to 38 mm = 1 1/2".
- [+] Working width up to 360 mm.

OFFICE LINE

WORKFLOW

Vertical punching - whether using manual or electric machine.

These punched sheets are inserted onto the ring wire binding element.

The complete brochure can now be easily moved into the closing device for closing.

Pull lever then release. Easiest way of ring wire binding!

MODULAR ASSEMBLY UPGRADE

Fast and easy change of the new SRW 360 / eco S 360 in only 3 minutes from a manual operated machine into a combined electric punch and manual closing machine.

SRW 360 / eco S 360

Remove the cover plate on the rear side of the machine.

+

Electric module

Insert and fasten the electric module. Refit the cover plate.

=

SRW 360 comfort / eco 360 comfort

In only 3 minutes changed from a manual to combined electric punch and manual closing machine.
